District Updates Travel Guidance

The District has amended its travel guidance for individuals traveling to the District. Travel-related quarantine and testing requirements may be waived for individuals who are:

- **Fully vaccinated against COVID-19; AND**
- **Is within 90 days of the last required dose; AND**
- **Does not have any symptoms consistent with COVID-19.**

Mayor Bowser held a press conference earlier today to announce this new guidance. We regret to inform you that this amendment was the only change to the travel related restrictions. We continue to work with the mayor to urge her to amend the group gathering numbers, prioritize vaccinating hotel employees, and implement more flexibility with the travel based restrictions. We will continue to update you on our efforts and any changes that are made.

For additional information regarding guidance for individuals who are fully vaccinated, please visit coronavirus.dc.gov/phasetwo.

Regards,
Lisa
